15+ COSMETIC SERVICES · FROM FORMULATION TO CPNP

From formula validation to CPNP notification — ELINEK covers every step of placing your cosmetic product on the EU market.

Product Information File (PIF)

- Compilation & management of complete PIF
- All mandatory documents per Reg. 1223/2009

Cosmetic Safety Assessment (CPSR)

- Part A: Safety information & toxicological data
- Part B: Safety evaluation, MoS / SED calculations
- Nanomaterials (Art. 16)

CPNP Notification

- Submission to EU Cosmetics Portal (CPNP)
- Multi-country EU notification support

Label Review & Claims

- Full compliance check vs Reg. (EC) 1223/2009
- INCI nomenclature & mandatory statements
- Fragrance allergens per Reg. (EU) 2023/1545

Toxicological Profile of Ingredients

- Assessment of individual ingredient safety
- Review of SCCS opinions & scientific literature

Stability Studies

- Accelerated (40°C/75% RH) & long-term
- Photostability
- Freeze-thaw cycling, package compatibility
- Physicochemical & microbiological monitoring

Preservative Efficacy Testing (Challenge Test)

- European Pharmacopoeia
- ISO 11930 — antimicrobial protection evaluation

Microbiological Analysis

- Total Aerobic Microbial Count (TAMC / TYMC)
- Specified pathogens (S. aureus, P. aeruginosa, E. coli, C. albicans)

Chemical Analysis

- pH, viscosity, density, melting point
- Heavy metals, PAHs, residual solvents

Dermatological Testing

- Patch test for skin tolerance
- In-vitro skin & eye irritation studies

Ophthalmological Testing (In Vitro)

- In-vitro eye irritation testing
- HET-CAM

Efficacy & Sunscreen Studies

- Moisturisation, anti-wrinkle, whitening studies
- SPF & UVA testing per ISO 24443 / 24444
- Free Sale Certificate (CoA-based)
- Safety Data Sheet (SDS) preparation
